EDUCATION

Johns Hopkins University

Master of Science in Computer Science

July 2026 - Now

University of Chicago

Bachelor of Science in Computer Science and Statistics

Sept 2023 - June 2026

INTERNSHIP EXPERIENCE

Intelligence Cubed, Hybrid

Software Engineer Intern

May 2026 - Now

- Engineered a **collaborative AI coding** workspace using FastAPI, WebSockets, tmux, and Firebase Authentication, enabling **2,000+ users** to share and interact with live Claude Code sessions.
- Launched standalone Claude Code and **ModelOS/RAG** workflows with automated VM provisioning and Google OAuth to support end-to-end AI development and deployment.
- Integrated a **multi-agent review loop** into the collaborative Claude Code platform, enabling specialized **agents** to use **20+ reusable skills** to evaluate, and iteratively refine code solutions, improving task completion rates by **10%**.

Roxxem, Chicago, IL

AI Engineer Intern

June 2025 - Aug 2025

- Rebuilt a scalable data processing pipeline for song difficulty prediction, processing **10,000+ data points** using **MongoDB and Google BigQuery** for storage and analytics. Deployed the pipeline as a **Google Cloud service** using **FastAPI** to expose a **REST API** for real-time prediction.
- Refactored feature engineering and trained a **Random Forest model** on **crowdsourced training data** for song difficulty scoring.
- Adjusted song difficulty levels for **~50%** of songs with the new pipeline compared to the previous LLM-based approach. **Increased the paid user base by 1,000+** within **3 months** through collaboration with product and business teams

Kang Tao Technologies, Remote (Independent Studio at Beijing, China)

Machine Learning Engineer Intern

July 2024 - Jan 2025

- Trained and fine-tuned **LoRA models** in **Stable Diffusion** for a 30-minute **AI-generated** short film project, "*September Eagles*", aimed at the 2025 Beijing International Film Festival.
- Processed **1,000+** images, trained **30+** LoRA models, and built **20+** workflows in Comfy UI for image synthesis and video generation, utilizing advanced plugins such as **ControlNet**.

PUBLICATION

Concept Incongruence: An Exploration of Time and Death in Role Playing

Xiaoyan Bai, **Ike Peng**, Aditya Singh, Chenhao Tan

Proceedings of **NeurIPS 2025**

Poster presentation at the main conference, San Diego, CA

SKILLS

- Programming: Python, Java, C, Unity, MATLAB, Rust, R, LaTeX
- Machine Learning Framework: PyTorch
- Database Management: MySQL, PostgreSQL, MongoDB, Google BigQuery
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn
